

Prototyping and Electronics

Shad Valley UBC

2012 July 5

Google “engphys shad 2012”

Jon Nakane, PhD PEng

Lab Director, UBC Engineering Physics Project Lab

During presentation:

1. Download software from USB.
2. Search for “Arduino Getting Started”

1. Projects done by Undergrads
2. Prototyping tools we use
3. Prototyping in Electronics

1. Examples of Undergrad Projects

2D Magneto-Optical Trap (Kirk Madison)

Rb source

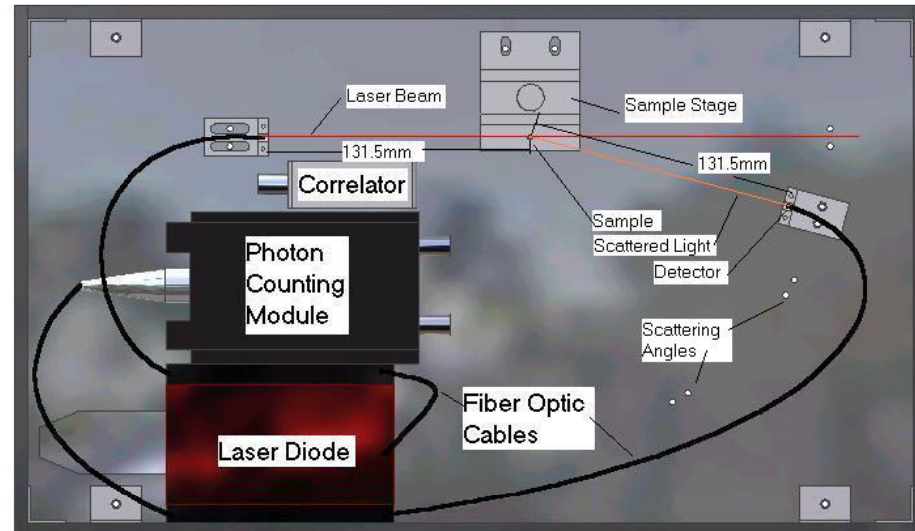

2D MOT/ Differential pumping

3D MOT

Dynamic Light Scattering Prototype for Measuring Platelet Quality (Elisabeth Maurer)

Canadian Blood Services
Société canadienne du sang

LightIntegra
TECHNOLOGY

Company started based
using 479 prototype

[Home](#) [About](#) [Technology](#) [Publications](#) [Contact](#)

Platelets save lives. **We save platelets.**

ThromboLUX™ is a quick and simple diagnostic test for platelet quality and function that will make it easy to screen platelets prior to transfusion.

Traditional methods of platelet quality testing are unreliable, time consuming, expensive and not used routinely. LightIntegra intends to make platelet quality testing a regular practice in blood banks around the world by making it accessible, affordable, reliable and fast.

Automated kite flying for power generation

Titanoboa vs. the Mondo Spider

2. Prototyping Tools in EngPhys

**Elec
+ Mech
+ Software
+ Systems Design**

Summer 2008 :

Operation-Bots

Summer 2009 :

Rescue Bots

Summer 2010 challenge:

Robo-Racers

Summer 2011 – Climber-Bots

**Computer-Aided Design (CAD) software –
we use Solidworks.**

WaterJet cutter

Our most
versatile
prototyping
machine

Laser Cutter

**– plastics,
wood, paper,
etching...**

3D Printer – uses ABS plastic

3. Prototyping in Electronics

In the old days (~8 years ago)

- Hardware programmer required
- Software was hard to get started.

Nowadays

- Low-cost all-in-one USB board. And Cheap!
- New software “hides” much of the software inside
- Target audience is much wider (artists, teachers, entrepreneurs, at-home makers)
- Still just as powerful.

\$25 Arduino board
